

GENTREPRENEURSHIP: Creating A Business

A beginning entrepreneurship accelerator designed by The Generator, an innovation hub powered by Go Forward Pine Bluff, for those seriously considering starting a business and those who have already started a business but are searching for clarity and a fuller understanding of running a successful business in Pine Bluff and Southeast Arkansas.

This 12-week accelerator will be delivered in a hybrid format. Lessons will be self-paced on Accenture's online-platform, weekly evening meetings will be in-person to discuss and amplify the lessons with presentations by subject matter experts and experienced entrepreneurs, videos, and more.

The eight modules online portion of this accelerator, "Creating Your Business", was developed in partnership between Accenture and Futurpreneur Canada, and it is the property of Accenture. This portion of the accelerator is sponsored exclusively in Pine Bluff by Rural LISC, a national program of Local Initiative Support Corporation (LISC).

GFPB, Inc. serves as a LISC Trustee for the KIVA-LISC loan program and can endorse entrepreneurs to apply for this program. The participants who successfully complete the Gentrepreneurship program will be eligible to be endorsed for this crowdfunding loan program.
